Abora Solar

Abora is a Spanish company formed by people
with a large background experience in the field
of solar energy, designing, developing and
manufacturing of hybrid solar panels. Abora was
created in 2017

The most profitable Solar collector on the market to supply

Abora Solar is a company specialized in
designing, developing and manufacturing hybrid
solar collectors, which simultaneously provide
heat and electricity. Our goal is to bring to the
market

Spain's solar thermal market impacted by various new

The photo shows the expanded production line of the PVT producer Abora Solar in Zaragoza, Northern Spain. Photo: Abora Solar Over the last 15 years, Spain's

Abora Energy

Abora designs, manufactures and sells hybrid solar panels that fuse solar thermal and photovoltaic energy to obtain the maximum energy potential of the sun. Abora solar panels are the most efficient

Solar Panel that generates electricity and heat , Abora Solar

Abora's hybrid solar panel optimizes heat production through a multi-layer system that efficiently recovers heat for applications such as domestic hot water. This technology maximizes the use of

Hybrid solar panel: efficient, economical, sustainable , Abora Solar

The Abora Hybrid Solar Panel is the most efficient and offers all the energy you need. Whether you want to produce your own energy, heat your pool or reduce your emissions, with the aHTech Hybrid Solar

Abora Solar: Where Innovation Meets Sustainability in Solar Technology

Imagine solar panels that moonlight as water heaters - that's essentially what Abora Solar brings to the renewable energy table. This Spanish innovator's hybrid photovoltaic-thermal (PVT) systems are
