IP55

ATEX Batteries , High Quality & excellent reliability

Custom ATEX batteries for OEM's. High quality ATEX batteries from a name you can trust. Distributed worldwide from our UK production facility. What is an

Batteries for extreme and hazardous environments - new challenges

Lead-acid batteries are widely used in hazardous environments for starting internal combustion engines in equipment such as vehicles, reserve power generators, pumps, mining

Advanced ATEX Batteries Design and Assembly

The Advanced ATEX Batteries Design and Assembly is a professional service offered by PMBL (located in Chard, UK) which has delivered targeted ATEX battery solutions to hundreds of

ATEX Explosion Proof Connectors & Cable Assemblies

ATEX Explosion Proof Connectors PEI-Genesis offers a range of ATEX explosion proof connectors and cable assembly solutions for use in hazardous environments in hazardous-

NexSys® TPPL ATEX Batteries

NexSys® TPPL ATEX Batteries Designed for material handling vehicles that operate in hazardous areas, ATEX-approved NexSys® TPPL ATEX batteries are engineered with Thin Plate Pure Lead

Why use an ATEX battery for your application

ATEX stands for ATmospheres EXplosible. This refers to the environments that these batteries may operate within and include areas that are considered to be hazardous, or potentially

ATEX Batteries In Demand

ATEX Batteries and Intrinsically Safe Batteries are in great demand from industries such as nuclear and defence. We have all heard of rechargeable batteries and Lithium-Ion batteries but

ATEX and IECEx certified cells and batteries for use in

Certified "EX" cells from Saft's M series of lithium manganese dioxide (Li-MnO₂) primary cells offer safe solutions for powering intrinsically safe equipment used

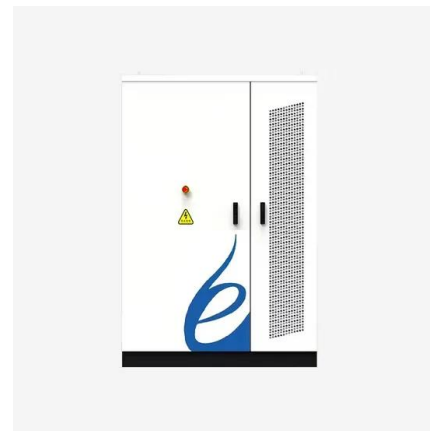

Custom Designed ATEX and NiMH Batteries Designed and

Custom ATEX and NiMH Battery Design, Assembly and manufacturing Service Battery designed and manufactured by PMBL must fit seamlessly into the application design and physical

ATEX Batteries Designed and Assembled by UK Specialists

The ATEX Batteries Designed and Assembled by UK Specialists, PMBL, offer a service that has delivered optimum ATEX battery solutions to hundreds of customers for over 20 years.
