

Best battery backup power supply

Overview

If you refuse to settle for anything less than the best, the APC Back-UPS PRO 1500VA is the right uninterruptible power supply for you. Its 1500VA/900W capacity should be more than enough for any modern gaming PC, as well as any monitors, TVs, speakers, or any peripherals you have plugged into it. At PCGuide we know power – yes we keep things switched off when not in use – and we know how underserved so many technology users are. If you're a PC user, this software can also be used to automatically shut down your PC once the UPS power backup battery life is low, which is especially g.
