

Buy alion energy inc

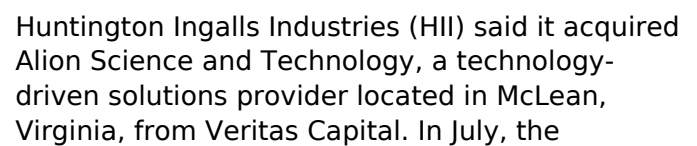

A large, open industrial battery cabinet, likely for a forklift. The cabinet is white with its doors swung open to the sides. Inside, there are several horizontal slots, each containing a black battery module. Each module has a yellow warning triangle and some text. To the left of the battery modules, there are two vertical control units with various buttons and indicators. The cabinet is set against a plain grey background.

Alion Energy is a Renewable Energy Semiconductor Manufacturing, Electricity, Oil & Gas, and Construction company located in Richmond, California with \$6.6 million in revenue and 13

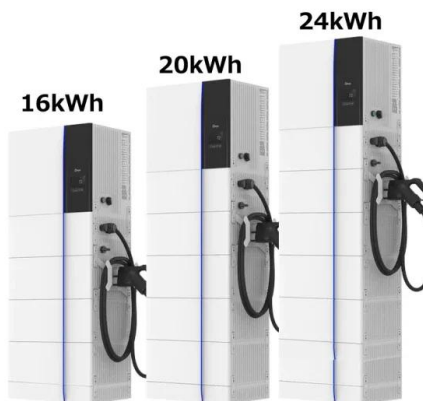

The diagram illustrates a hybrid power system architecture. It includes PV panels, a PV combiner box, a battery bank, a generator, a charge controller, an inverter, a house, and a cell tower. The PV panels and generator are connected to the battery bank through a combiner box and charge controller, respectively. The battery bank provides power to the inverter, which then powers the house. A GPRS connection links the system to a cell tower.
