

Catl batteries

Catl batteries

A Complete Guide to Catl Na Battery: Specifications, Types, and

Types of CATL NA Batteries A CATL NA battery refers to a range of advanced lithium-based energy storage solutions developed by Contemporary Amperex Technology Co. Limited

CATL and BMW Sign a MOU to Deepen Cooperation on Battery

CATL and BMW have entered strategic partnership since 2012, building collaboration across battery production, joint research and development, and sustainable supply chains. The new

Gasgoo Weekly Highlights , CATL and BMW Launch Battery Passport

Looking ahead, CATL and BMW Group will continue to implement these initiatives, leveraging technological innovation and supply chain synergy to drive the green and digital

Gotion finalizes design for 2-GWh solid-state battery line

Gotion is accelerating the commercialization of its next-generation batteries, with the design work for its 2-GWh all-solid-state battery line now largely complete.

Chinese Battery Giant CATL Ready to Rattle the World With AI

Tesla (TSLA) battery-maker CATL has vowed to ramp up the use of AI and drive Chinese EV technology further around the world. Claim 70% Off TipRanks Premium Unlock hedge fund-level

CATL Unveils Sodium-Ion Battery for EVs to Tackle Winter Range Loss

Chinese battery giant CATL has announced plans to launch electric vehicles powered by its new sodium-ion battery technology, called Naxtra, in mid-2026. The company claims the battery can

48V 100Ah

CATL and BMW prepare for upcoming battery passport

CATL and BMW aim to deepen their existing partnership. In a new letter of intent, the focus is specifically on data exchange: Both parties intend to make progress in cross-border data transfer

CATL's sodium-ion battery targets brutal EV range loss in winter

CATL, the world's largest electric vehicle battery manufacturer, is advancing sodium-ion battery technology that it says could help address one of the most persistent complaints among EV owners

A Complete Guide to Catl Battery Ev: Specifications, Types, and

Types of CATL Batteries for Electric Vehicles
CATL (Contemporary Amperex Technology Co. Limited) is a global leader in lithium-ion battery innovation, supplying advanced energy storage

CATL in the Crossfire: How US Rules Are Rewriting EV Supply Chains

Washington's new "foreign entity of concern" rules and CATL's designation as a "Chinese military company" highlight how US efforts to secure EV supply chains are reshaping clean energy,

CATL founder says battery giant will cooperate globally on new

Chinese battery giant Contemporary Amperex Technology Co., Ltd. (CATL) will continue to work hard with counterparts around the world to make outstanding contributions to the new energy

CATL: In the next 20 years, 50% of new batteries globally will no

In the next 20 years, 50% of new battery production globally will no longer rely on mineral mining. We will also use the battery industry chain as a starting point to further drive a systematic

CATL sodium-ion battery aims to improve EV winter range loss

CATL says its sodium-ion pack can keep charging and delivering power far below freezing. The real test is whether those lab numbers survive real winter driving

CATL and BMW to deepen cooperation on batteries data

CATL and BMW have entered strategic partnership since 2012, building collaboration across battery production, joint research and development, and sustainable supply chains.

Changan to use innovative CATL Naxtra batteries in its passenger

With up to 175 Wh/kg, the energy density of the CATL Naxtra Battery is among the highest of any mass-produced sodium-ion batteries. Vehicles equipped with sodium-ion power batteries are

CATL Unveils New EV Batteries to Accelerate European Expansion

Contemporary Amperex Technology Co. Ltd. introduced two battery variants designed specifically for Europe's electric vehicle market, underscoring its growth ambitions in the region. The

CATL's battery swap ecosystem expands as GAC and BAIC set to

CATL (HKG: 3750, SHE: 300750) is gaining more automaker support for its battery swap expansion, with GAC Aion and BAIC Arcfox both preparing new models that support the battery

CATL vs. BYD: Sodium-Ion Battery Development Strategies in

Executive Summary CATL and BYD represent the vanguard of sodium-ion battery (SIB) development in China, with CATL demonstrating overwhelming dominance in patent volume and a broad ecosystem

Global EV Battery Usage Rises 10.7% in January as CATL Expands

Global electric vehicle battery usage reached about 71.9 gigawatt-hours in January 2026, representing a 10.7% increase compared with the same month a year earlier, data from South

CATL and BMW Sign a MOU to Deepen Cooperation on Battery

Under the MOU, CATL and the BMW Group will collaborate on pilot projects on cross-border data transfer under the Battery Passport scenario, deepening cooperation in exploring trusted

CATL and BMW Work Together on the Battery Pass

At the end of February 2026, CATL and BMW signed a Memorandum of Understanding in Beijing. As part of this, both companies have agreed on pilot projects for trustworthy data exchange

BMW And CATL Battery Pact Highlights ESG Focus And Valuation

BMW Group (XTRA:BMW) and CATL agreed to deepen their partnership on decarbonizing the power battery supply chain. The collaboration focuses on lower carbon battery production and
