White paper BATTERY ENERGY STORAGE SYSTEMS (BESS) --

Renewable energies and their integration within the grid is increasing pressure on power networks. Thus, the need for battery energy storage systems (BESS) to provide grid balancing, keep pace.

Luxcara completed the acquisition of a majority stake in BESS from

Luxcara, a unique approach to clean energy infrastructure investments, has completed the acquisition of a majority stake in BESS, a large-scale battery energy storage project from Trianel,

Start of Construction: Soltau, Lower Saxony

Following our recent momentum, we're incredibly excited to share that our latest Battery Energy Storage System (BESS) project in Soltau, Lower Saxony, is now entering construction! We're

Luxcara acquires 520 MW Battery Storage Project

Luxcara, a leading independent German asset manager for clean energy infrastructure projects, has acquired a 520 MW battery energy storage system (BESS) project in Waltrop,

Battery energy storage systems (BESS)

BESS are characterised by a high energy density, which significantly increases the risk of fire. In the event of an error, this can lead to intense fires that are difficult
