

Cost of 2000 solar

Overview

Based on national averages, solar panels cost just over \$20,000 for a house with 2,000 square feet of living space. Again, there are a number of variables that impact how many panels make up a system. While living space isn't a great indicator of how much a solar system will cost, the data provides a baseline net cost around \$20,000 for solar for a 2,000.
