

Cost of back up generator for home

Overview

How Much Does a Backup Generator Cost?

Most homeowners spend around \$7,500 to install a whole-home standby backup generator. Of course, the price of a generator installation depends on many variables, including the size of the unit and labor rates in the area. On average, an electrician charges \$50 to \$200 per hour, but for a project like this, they will often quote a flat-rate price for the install.
