DG Matrix raises \$60m to scale solid state transformer for data center

DG Matrix has also partnered with PowerSecure, a Southern Company subsidiary, to accelerate the deployment of next-generation power infrastructure for AI data centers and large-scale

DG Matrix

DG Matrix 's Products & Differentiators Power Router The DG Matrix Power Router is a multi-port solid-state transformer (200 kW or 400 kW, 6 bi-directional ports) that combining multiple energy sources

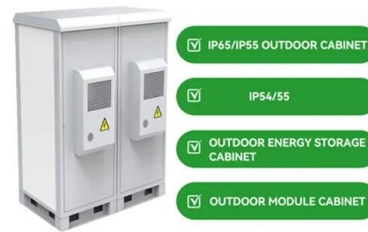

DG Matrix raises \$60m to scale solid state transformer for data center

US solid state transformer developer DG Matrix has raised \$60 million as part of its Series A funding, led by Engine Ventures. The latest round brings the company's total capital raised

Powering the AI Revolution: New Cost Effective and Efficient AI Data

As AI Factories accelerate, we're proud that DG Matrix's multi-port Solid-State Transformer (SST) platform is the first commercially available solution purpose-built to meet the requirements

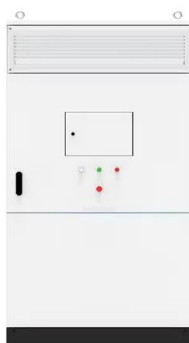

DG Matrix's Post

? NEW WHITE PAPER: DG Matrix is powering the next era of AI infrastructure. As AI Factories accelerate, we're proud that DG Matrix's multi-port Solid-State Transformer (SST) platform is the

DG Matrix , Solid-State Transformer Solutions for AI Datacenters

DG Matrix accelerates speed to power and lowers energy costs with the world's first multi-port solid-state transformer--powering AI datacenters and electrification with a total-energy-management solution.

About , DG Matrix

DG Matrix fundamentally changes that equation. Their platform allows us to deploy high-power charging faster, at lower total cost, and with far less grid risk, enabling us to scale fleet charging across

DG Matrix , Solid-state Transformer Solutions for AI Datacenters

The DG Matrix Power Router platform offers the world's most versatile, efficient, reliable, and cost-effective solution for to accelerate electrification across multiple industries.

DG Matrix Closes \$60 Million Series A to Scale Next-Generation

DG Matrix Closes \$60 Million Series A to Scale Next-Generation Power Infrastructure for AI and Electrification. Oversubscribed round brings total capital raised to over \$100 million; additional

DG Matrix Closes \$60 Million Series A to Scale Next-Generation

DG Matrix has commercialized the world's first multi-port solid-state transformer to solve the most urgent challenges in deploying power infrastructure for AI datacenters and electrification.

DG Matrix - The IT Nerd

DG Matrix and Musashi Energy Solutions, a wholly-owned subsidiary of Musashi, today announced a strategic collaboration to tackle one of the biggest hurdles in AI infrastructure: extreme power

The DG Matrix Power Router , The World's First Multi-port Solid-state

DG Matrix introduces the world's first multi-port solid-state transformer--enabling unprecedented speed to power, lower energy costs, and seamless integration of multiple AC and DC energy sources and

DG Matrix , Solid-State Transformer (SST) Solutions for AI

DG Matrix accelerates speed to power and lowers energy costs with the world's first multi-port solid-state transformer (SST)--powering AI datacenters and electrification with a total-energy

DG Matrix , Solid-State Transformer (SST) Solutions for

DG Matrix accelerates speed to power and lowers energy costs with the world's first multi-port solid-state transformer (SST)--powering AI datacenters and

ESS

DG Matrix , Solid-state Transformer Solutions for AI Datacenters

The DG Matrix Power Router platform offers the world's most versatile, efficient, reliable, and cost-effective solution to accelerate electrification across multiple industries.

DG Matrix to deliver first solid-state transformers

DG Matrix says its SSTs have multiple ports to manage DC and AC sources from generation and storage, giving the SSTs more flexibility, lower operating and capital costs, and a

250304 1623 The DG Matrix Power Router for Building Electrification

The DG Matrix Power Router for building electrification is designed to accelerate electrification with ultimate flexibility and unmatched performance. An all-in-one solution for integrating building power

DG Matrix - Funding, Valuation, Investors, News

DG Matrix accelerates speed to power and lowers energy costs with the world's first multi-port solid-state transformer (SST)--powering AI datacenters and electrification with a total-energy
