

# Cost of filkab solar

## Overview

---

Beyond energy cost reduction, we offer specialised services like reactive power compensation and backup power setups. For specific case scenarios, we even develop fully autonomous systems, allowing them to operate independently from the grid. We have close partnerships with the leading European producers of PV modules, inverters, controllers and rechargeable batteries. FILKAB offers a wide selection in the following product groups - Power cable accessories, Heating cables and accessories, Cable accessories for overhead lines, Telecommunication cable accessories, Cable terminals, Fixing products, MV and HV electrical equipment, Insulators, Lightning protection. The company is headquartered in Plovdiv and maintains several trade bases across Bulgaria. Trustburn is the best place to read candid reviews from real customers about Filkab solar ood.
