CATL Explores Sodium-Ion Batteries and ESS Growth in Europe

CATL shared insights into its sodium-ion initiatives, revealing investment in research and development to ensure cost-efficiency and high performance. Unlike lithium, sodium is abundant and

Energy Storage System

Thanks to features such as the high reliability, long service life and high energy efficiency of CATL's battery systems, "renewable energy + energy storage" has more advantages in cost per kWh in the

CATL is pushing the limits of energy storage. Here's what's new

The ESS market is evolving fast. The product will feature CATL LFP cells and five-year zero-degradation technology. Higher performance is possible, but not pursued due to cost

CATL Unveils TENER Stack: The World's First 9MWh Ultra-Large

With a single-unit capacity of 9MWh, it can fully charge 150 electric vehicles or power a typical German household for six years. "CATL remains a pioneer in the energy transition," said

Cat® Battery Energy Storage Systems , Cat , Caterpillar

Expand your energy capacity and power resiliency with the Cat® Battery Energy Storage System (BESS). A new suite of commercially available battery technologies boosts power reliability, quality,

2025 Global Energy Storage Recap: Supply Inversions, Chinese Dominance, and the Dawn of 500Ah+ Era 2025 was a landmark year for the global Energy Storage System (ESS) industry. According to

CATL Launches World's First 9Mwh Ultra-Large Capacity TENER

CATL Launches World's First 9Mwh Ultra-Large Capacity TENER Stack Energy Storage System Solution. CATL has always been at the forefront of the energy transition, said Amanda Xu,

Cat® Energy Storage Systems Reduce Costs, Enhance

Caterpillar Inc. today announced the launch of Cat® Energy Storage Systems (ESS), a new suite of commercially available battery technologies that help

LEHE0966-00 dd

Smart Monitoring Integral to every Cat ESS is a telematics suite that provides superior analytics for tracking local power reliability, ESS performance, remaining life, individual cell health, and operating

CATL Unveils TENER Stack: The World's First 9MWh Ultra-Large

CATL debuts 9MWh TENER Stack, the worlds first ultra-large energy storage system bins split-design transport compliance, 5-year zero-degradation cells, 20% cost

CATL is pushing the limits of energy storage. Here's what's new

It was officially unveiled at ees Europe 2025. The product will feature CATL LFP cells and five-year zero-degradation technology. Higher performance is possible, but not pursued due to
