How much could you save with GivEnergy? Use our quick calculator to find out what switching to smart energy storage could do for your home. See What You Can Save

To Strive forward No Energy Waste

- ✓ All in one
- ✓ 100~215kWh High-capacity
- ✓ Intelligent Integration

Just had givenergy installed

Your installer has to contact GivEnergy and instruct them to commission the system. I had roughly the same setup installed last week and after a day was able to setup a "smart tariff" (as it calls it) on the

Limiting solar usage and/or exporting excess to grid.

Using the 7p energy in the battery is cheaper than using the 15p energy I could be exporting to the grid. Based on the setup this is probably unlikely, as I understand that the inverter

GivEnergy AC Coupled Energy Management System
