HMD OffGrid Gives Satellite Access To Your Phone

HMD's new OffGrid hotspot accessory is designed to let smartphones send texts using satellites. We liked it so much, we named it a Best of CES award winner. CNET's Lisa Eadicicco gives it a look.

HMD OffGrid Means You're Never Truly Off Grid

HMD OffGrid uses ultra-reliable L Band satellite radio spectrum, enabling any Androidtm or IOS[®] user to connect directly to satellites, even in the world's most challenging environments.
