Quick Summary
Phocos Any-Grid(TM) Hybrid Inverter Charger Series
How Does Phocos Stack Up Against Other Inverter Brands?
Final Thoughts
Phocos inverters are German engineered and manufactured in Asia. They're much more expensive than a Must, Growatt or Mecer inverter which cost \$650, \$850 and \$800 respectively. The only inverter that costs more locally is a Victron which will set you back \$2,050. With that said, Phocos is a quality product.
