

Huge solar panel

Overview

We've looked at the 15 biggest solar farms in the world right now, examining capacity, total investment, and the future of solar power worldwide. We've used the most accurate and up-to-date information we could find, from a combination of official websites (where available), the NS Energy Businesssolar project database, and other. The Newcastle Waters solar park, located in the outback of Australia's Northern Territory, will have an installed. While it's great to see solar power capacity increase and more solar farms built, one negative factor stands out — monopolisation.
