

Hw 288 bms cost

Overview

BMS 3S 40A 12V Protection Board Balance Version Specification: Product model: HW-288 Charging Voltage: DC 12. 6V Continuous discharge current: maximum 40A (if heat dissipation environment is not good, please reduce the use of load current) Continuous charging current: . Enhance your power tools with the HW 288 BMS 12V 40A Lithium Battery Recovery Charger. 6V lithium-ion battery protector, supporting 10A continuous current and offering precise voltage protection and passive balancing. Proper wiring and cell matching are essential for optimal performance and safety.
