Liddell Battery Energy Storage System (BESS) Project

Project Summary AGL have engaged Fluence Energy to design, supply, construct and commission 500 MW, two-hour duration, grid scale battery to be located at AGL's Hunter

Liddell BESS Project

This Stakeholder Engagement Plan (SEP) is applicable for the development of the AGL Liddell Battery Project, located on the existing site of the Liddell Power Station in the NSW Hunter Valley.

Liddell Power Station Battery Energy Storage System

AECOM Australia Pty Ltd (AECOM) was commissioned by AGL Macquarie Pty Ltd (AGLM) to prepare an Environmental Management Strategy (EMS) for a Battery Energy Storage System (BESS) to be

Eurowind Energy starts installation of 120-MWh BESS in Romania

The Romanian subsidiary of Danish renewables developer Eurowind Energy A/S is entering the installation and integration phase of its Teius Battery Energy Storage System (BESS)

Liddell Battery Energy Storage System

Project Overview: Fluence Energy have been engaged formally by AGL Liddell BESS Pty Ltd to execute a design, engineer, manufacture, procure, supply, construct, deliver, install,

AGL lights up Liddell battery, Forrest wind farm seals NSW contract

The latest round of NSW renewables and storage projects coincides with AGL Energy giving the go-ahead to build a \$750 million large-scale battery at its Liddell site.

Lumea and AGL mark major milestone for Liddell Battery

The project has welcomed the arrival of two 330 / 33 kV transformers weighing an impressive 254 tonnes each, transported on custom-built trailers on a nine-hour voyage from Port of

48V 100Ah

The Liddell Battery Energy Storage System

The project has been delivered under a coordinated multi-party model led by AGL Energy Limited as the asset owner through its project specific subsidiary and project proponent AGL Liddell BESS Pty Ltd.

Herbert Smith Freehills advises AGL Energy on its development of

Herbert Smith Freehills (HSF) is pleased to have advised AGL Energy on its 500 MW / 1,000 MWh battery energy storage system (the Liddell BESS). The Liddell BESS will be located at

The Liddell Battery Energy Storage System

The Liddell Battery Energy Storage System (LIDBESS) project forms part of AGL Energy's broader strategy to repurpose the former Liddell Power Station site into a clean energy hub supporting the

Final Investment Decision reached on the 500 MW Liddell battery project

AGL Energy Limited (AGL) today announced it has reached a Final Investment Decision (FID) on a 500 MW, two-hour duration, grid scale battery to be located at AGL's Hunter Energy Hub

Gateway by ICN

Project Overview: Fluence Energy have been engaged formally by AGL Liddell BESS Pty Ltd to execute a design, engineer, manufacture, procure, supply, construct, deliver, install, commission and test the

Lumea & AGL Partner on 500MW NSW Battery Project , LUMEA(TM)

The Liddell BESS Project is not the first instance of a working relationship between Lumea and customer AGL, after contracts were executed in 2023 permitting Lumea to connect the

Montenegro liddell bess

The Liddell Battery Energy Storage System (BESS) Project is being built at AGL Energy's (AGL) Hunter Energy Hub in New South Wales (NSW). The project infrastructure will include approximately 900 pre

Liddell Battery and Bayswater Ancillary Works Project

Background and project overview AGL Macquarie Pty Limited (AGLM) owns and operates the Bayswater and Liddell power stations, Hunter Valley Gas Turbines and associated ancillary
