

Litherite solar cell

Litherite solar cell

Solar Cell

It is used to build the Solar Array. It comes in 6 tiers, each producing more power over the previous one when used in a Solar Array, although lower tier Arrays can't use high tier Cells to their maximum

All the Guides

Piezo - allows solars to gen in rain/thunderstorms from vibrations. Electrostatic - allows Lightning rods to gen passively in rain and thunder. Radiant - allows lightning rod to gen passively in sunny weather.

Solar Array

FE production depends on the tier of the Solar Array, the Solar Cells that are used, as well as the current amount of sunlight the latter receive. This table gives the amount of FE generated per tick in

Environmental Energy 3 Wiki

Solar cells are obviously the most important part of the Solar Panel. Any combination of cells (Any tier) can be used on any Panel, meaning you could potentially use Nanorite and Xerothium cells on a

Litherite Crystal

It is the entry-level, Tier 1 base material in the Environmental Tech mod, used in the crafting of solar cells, the Void Ore Miner, and several modifiers. It is originally obtainable by crafting, but can later be

Solar Energy

Solar cells are obviously the most important part of the Solar Panel. Any combination of cells(Any tier) can be used on any Panel, meaning you could potentially use Nanorite and Xerotherm cells on a

Environmental Tech

1 litherite solar cell The remaining recipes for these again follow the pattern, whereby they require 3 of that tier's mineral, 2 photovoltaic cells, and one a solar cell of the previous tier.

Page Revision for Solar Cells , Team Kryptic Link Wiki

Solar cells are obviously the most important part of the Solar Panel. Any combination of cells (Any tier) can be used on any Panel, meaning you could potentially use Nanorite and Xerothium cells on a

Sri Lanka litherite solar cell

Litherite solar cell 3 litherite 3 photovoltaic cell (4 lapis, 1 quartz) 2 redstone 1 interconnect
Erodium solar cell 3 erodium 2 photovoltaic cell 1 litherite solar cell The remaining recipes for these again follow the

The Beast Litherite , Photovoltaic Cell (Environmental Tech)

It is used to craft Tier 2 components of Environmental Tech multiblocks (Structure Frame Tier 2 and Erodium Solar Cell) as well as various decorative blocks such as Erodium. It can be obtained from

Environmental Tech

I tested this quickly by swapping out single litherite (Tier 1) cells from a top tier solar array with tier 2 and tier 6 cells, then swapping more out, before finally replacing the whole set of cells

Western Sahara litherite solar cell

Solar cells are obviously the most important part of the Solar Panel. Any combination of cells(Any tier) can be used on any Panel, meaning you could potentially use Nanorite and Xerothium cells on a
