

Maxsolar energy for sale

Overview

Starting 1 April 2024, BKW will draw around 150 gigawatt hours of renewable electricity from the Bürgersolarpark Kraiburg am Inn in Bavaria, Germany, over a period of 10 years. The solar farm will commence operations in late 2023 and will have an installed capacity of 13 megawatt peak. MaxSolar is a nationwide provider of O&M, asset management, and technical services for distributed solar photovoltaic, EV charging, and energy storage systems. Alexa Capital acted as exclusive financial advisor to MaxSolar on its sale to Nature Infrastructure Capital and Greenvolt. With renewable energies, flexible storage solutions and regional heating and mobility concepts, we strengthen the resilience of supply and competitiveness of industrial and tech companies as well as local authorities.
