Topclass Solar

Nines photovoltaics

Nines photovoltaics

Nines Photovoltaics

Nines Photovoltaics focuses on silicon wafer etching processes for the solar industry. The company's main offering is the ADE (Atmospheric Dry Etching) technology, a patented gas phase etching

Nines Photovoltaics Company Profile

Nines Photovoltaics (also known as Ultra High Vacuum Solutions) is a company that offers process technology, machinery, and equipment for the international photovoltaic (PV) solar cell manufacturing

Nines Photovoltaics secures EUR3m funding from InnoEnergy

To capitalise on this rapid market growth, Nines PV - based in Ireland - will use the funding to develop and commercialise a high throughput production tool that will enable

Nines Photovoltaics appoints sales agent in North America

Nines PV have engaged North American Nanotech, Inc.as exclusive sales agent in the North American market. The R& D tool (9s DE 100) is the first model to be available to the

market. Nines and North

Nines Photovoltaics dry texturing process demonstrates > 18% MC-SI

Nines Photovoltaics announced today that they have demonstrated solar cell efficiencies over 18% by applying their unique Atmospheric Dry Etching (ADE) texturing process in a standard

Is this Irish Start-Up Revolutionising the Solar Energy Manufacturing

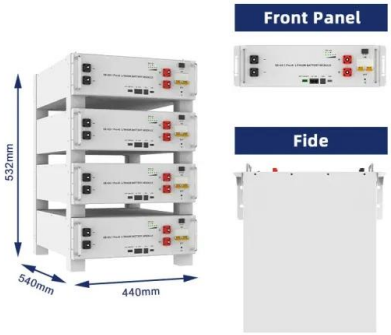
Nines Photovoltaics is based in Dublin, Ireland and is revolutionising the PV Solar Cell manufacturing industry with their innovative technology. Their processing tools aim to significantly

Nines Photovoltaics

Nines Photovoltaics has developed new technology and will launch a product range, targeting PV solar cell 80 manufacturers worldwide. These products address the issues detailed above and aim to

Nines PV :: Products

Nines are offering a range of standard processing tools with the patented ADE (Atmospheric Dry Etch) technology at the core.This technology offers benefits to the cell manufacturer with an efficient and



Nines PV :: Minister Bruton officially opens pilote line

Nines PV has received funding from the EU Framework Programme 7 research support programme to help with this demonstrator (Ref-DEMOSOLNOWAT - FP7:606400). About Nines Photovoltaics

Nines Photovoltaics

Associated sectors: Solar; Cleantech; photovoltaic; renewable sources; solar energy; Utilight Israel Privately Held Utilight Ltd. is an innovative startup company striving to provide a better way to utilize

Nines Photovoltaics

Nines Photovoltaics develops solar technologies. The Company focuses on bringing new process technology, machinery, and equipment to the photovoltaic solar cell manufacturing industry. Nines

Nines Photovoltaic company information, funding & investors

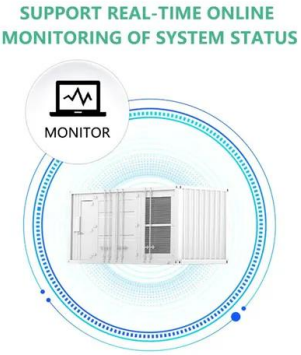
Nines Photovoltaic, dry silicon etching process for the solar cell industry - the ade technology. Here you'll find information about their funding, investors and team.

Nines Photovoltaics Company Profile

Nines Photovoltaics has 5 employees at their 1 location. See insights on Nines Photovoltaics including office locations, competitors, revenue, financials, executives, subsidiaries and more at Craft.

Nines Photovoltaics

About Nines Photovoltaics is Alternative Energy Equipment in Ireland that focus on equipment include business. Founded in 2007. They cover business area such as manufacturer, solar-cell production



Nines PV secures EUR 3m for PV tool development

Irish firm Nines Photovoltaics last week said it has secured EUR 3 million (USD 3.5m) in funding from InnoEnergy to help bring a solar manufacturing tool to market.

Nines PV Brochure dd

Nines PV technology was developed in order to address the needs of the PV industry for high throughput, cost eficient, enabling etching solutions. The inline atmospheric nature of the process,

Nines PV :: News & Contacts

Nines Photovoltaics appoints Merconics GmbH & Co. KG as its sales agent for Central Europe Dublin based solar cell equipment manufacturer, Nines Photovoltaics (NinesPV) have just

Nines PV :: News & Contacts

Nines Photovoltaics appoints Merconics GmbH & Co. KG as its sales agent for Central Europe Dublin based solar cell equipment manufacturer, Nines Photovoltaics (NinesPV) have just launched their

Nines PV :: Nines Photovoltaics ships first industrial tool to

Nines Photovoltaics has completed the build of its first industrial silicon wafer processing tool and has recently shipped it to the Fraunhofer ISE Germany, the largest solar energy research institute in

Nines PV , mysite

Nines Photovoltaics was established in 2010, with a dedicated team that is focused on bringing new innovative process technology, machinery and equipment to the international Photovoltaic (PV) solar

Nines PV :: About Us

Nines Photovoltaics was established in 2010, with a dedicated team that is focused on bringing new innovative process technology, machinery and equipment to the international Photovoltaic (PV) solar
