

Power backup for computer

Overview

As such, UPS devices are rated for power (the amount they can supply) and LCD models will advise how run time they have in them too. If you refuse to settle for anything less than the best, the APC Back-UPS PRO 1500VA is the right uninterruptible power supply for you. If you're a PC user, this software can also be used to automatically shut down your PC once the UPS power backup battery life is low, which is especially g.
