Electricity

Electric Power Monthly Data on net generation by source and state; fossil fuel consumption and stocks; quantity, cost, and quality of fossil fuels; electricity sales, revenue, and average revenue per

China , Energy Trends , Ember

China contributed more than half of the global increase in both solar and wind generation. China is the world's largest electricity consumer, in 2024 accounting for a third of global power

Renewable energy: Smaller corporate buyers get creative

As renewable energy economics shift, smaller buyers get creative Companies like Brown-Forman, Cardinal Health and REI are looking for simpler clean power deals located closer to their

Renewable Power Generation Costs in 2024

In 2024, renewables helped avoid USD 467 billion in fossil fuel costs, reinforcing their role in enhancing energy security, economic resilience, and long-term affordability.

IRENA Renewable Power Generation Costs in 2024

IRENA Renewable Power Generation Costs in 2024 The latest cost analysis from IRENA shows that renewables continued to represent the most cost-competitive source of new electricity generation in

Renewable power generation costs in 2024

In 2024, renewables helped avoid USD 467 billion in fossil fuel costs, reinforcing their role not only as the lowest-cost source of new power but also as a key driver of energy security, economic stability,

Renewables and Electricity Affordability: Untangling Correlation from

Energy prices nationwide have been rising at roughly twice the rate of inflation. Many observers link this trend to the rapid growth of renewable generators, particularly utility-scale wind

Study: Levelized Cost of Electricity

This study analyzes the LCOE of various power generation technologies in Germany in 2024, including renewable and conventional sources. It shows that PV and onshore wind are the most cost-effective

1075KWHH ESS

EDP Renewables increases power generation by 11% to 41 TWh in 2025

Power generation remained stable in Europe at 28% of EDP Renewables' total generation. The company's increase in its net profit is due to "strong and persistent cost-control strategy" and a
