

Sices solar supplier

Overview

Sices is a leading company specializing in the design and production of low-voltage automation and power control panels, tailored for cogeneration systems, generators, turbines, biodigesters, MCC, machine control panels, power centers, and photovoltaic plants. The photovoltaic market is rapidly growing and presents technical challenges that require advanced and reliable solutions to ensure energy efficiency and effective emergency management. Sices, with its extensive experience and project flexibility, is at the forefront of providing innovative. From the design, construction, up to the commissioning of the products, all production processes are carried out. Of Italian origin, with more than 40 years in the energy market, committed to continuous innovation and transparency in the supply of photovoltaic solar energy generation equipment, Sices México offers the best solutions for greater competitiveness and growth of its customers.
