Top 10 Solar Companies in Austria [Updated 2025]

This comprehensive guide examines the top 10 solar companies making significant impacts in Austria's renewable energy transformation. The Austrian solar market features a diverse mix of global

National Survey Report of PV Power Applications in AUSTRIA

The IEA Photovoltaic Power Systems Programme (IEA PVPS) is one of the TCP's within the IEA and was established in 1993. The mission of the programme is to "enhance the international collaborative

Swatten Strengthens Its Position in Austria with Scalable Solar-Plus

At Energie Sparmesse Expdenergy 2026, Swatten presented a focused portfolio of solar-plus-storage solutions tailored to Austria's distributed PV market. The lineup included the AC Charger

The PV Potential in Austria is Huge

Sonja Wogrin: Austria's electricity consumption will rise sharply by 2040 and may almost double. Depending on the electricity demand in 2030 and available demand-side flexibilities and

Austria Renewable Energy PV Installation Growth

Austria's photovoltaic (PV) boom is gaining momentum. Nearly 500 MW of PV came online in Q1 of 2024 according to Austria's electricity regulator eControl, a 77% increase over the

APG: June evidences PV boom and need for grid expansion in Austria

APG factbox shows a PV record production of 763 GWh in June, consistent electricity exports, and a great need for investment in the electricity grid infrastructure.

Austria Electricity Generation Mix 2025 , Low-Carbon

Suggestions To bolster its low-carbon electricity generation, Austria could look to expand its successful wind and solar sectors. Observing other regions, Austria

National Survey Report of PV Power Applications in Austria 2024

The Austrian PV sector supported approximately 12,100 full-time jobs in 2024, primarily in installation, distribution, and manufacturing. Domestic module production reached 70 MW, with manufacturers

Austria Solar Power Market Report (Q1 2026)

Blackridge Research's Austria Solar Power Market Outlook report provides comprehensive market analysis on the historical development, the current state of solar PV installation scenario, its outlook

National Survey Report of PV Power Applications in Austria 2024

Outlook: Austria's PV capacity growth aligns with its national targets of 21 TWh of solar generation by 2030 and 41 TWh by 2040. Annual additions of 1.6-2 GW are expected over the coming years,

The power of renewables: how our electricity system

Taking wind, biomass and solar into account, renewable power generation rises to more than three-quarters of the country's total electricity production. Austria's

Photovoltaics

If this potential is to be leveraged, however, the power system will have to be made more flexible across the board. *Source: Technology Roadmap for Photovoltaics in Austria, BMVIT 2016 The IEA is
