

Tob energy cost

Overview

Tariffed on-bill (TOB) programs, also referred to as inclusive utility investment (IUI) programs, enable a utility to pay for cost-effective energy efficiency or other clean energy upgrades at a customer site. HELP PAYS began as an on-bill loan program called Home Energy Loan Program, and later converted to a more inclusive tariffed on-bill program based on the PAYS® system (2016–present).

Tob energy cost

Flexible Financial Credit Agreements: Tariff On-Bill Financing (TOBF)

As one example, Hawaii Electric Companies has a TOBF program that enables LMI customers to pay back the cost of installing solar PV, solar water heaters, and other eligible clean energy upgrades

(PAYS) (referred to jointly as "TOB") loans. These products are

TOB products are loans placed on the utility bill without the protections required for traditional installment debt. is tied to the meter and is marketed as a utility expense rather than a loan, it operates similarly

Growing use of AI brings an environmental impact , AP
