Community Solar: Is Shared Energy Right For You?

Other Situations: Others in special situations benefit from community solar and shared energy. For example, if your roof needs replaced, receives too much shade, or cannot support

Our Impact , By the Numbers , We Share Solar

Discover the impact of We Share Solar. View our breakdown of educational programs nationwide, students trained in our STEM program, solar suitcases deployed and more.

Red Dot Design Award: We Share Solar

This app allows investors of "We Share Solar", a crowd-funding platform for collective solar power in the Netherlands, to constantly monitor the performance of their solar panels. An indicator makes it easy

We Share Solar

We Share Solar teachers lead students in building a 12-volt DC stand-alone solar system, the We Share Solar® Suitcase. Students learn about global energy poverty, basic electricity, solar energy, and
