

Which solar cost

Overview

The cost of a small scale solar installation (0-4kW) increased 26% from 2021/22 to 2022/23, according to data from the government department for Energy Security and Net Zero (DESNZ) published in May 2023. For comparison, a home using a 'medium' amount of electricity gets through 2,700kWh a year on average, according to energy regulator Ofgem. You'll need to get quotes from solar panel companies to find out what it would cost to meet your specific requirements.
